

SILVER ZINC COPPER PROPERTY SOLD

EMPIRE ZINC CO.
IS THE BUYER

Geo. Utter's Valuable Property, Often Sought by Purchasers, Changes Hands.

ANOTHER big mining deal, one of the largest in recent years in New Mexico, will be brought to a close when after months of negotiations, the famous Cleveland group of silver mines, claims in the Pinos Altos district, belonging to Geo. H. Utter, of this city, will pass into the hands of the Empire Zinc company, a subsidiary of the New Jersey Zinc company, one of the largest if not the largest producers of zinc in America.

The consideration is private but rumor has it that it is between \$200,000 and \$300,000 and it is a cash deal. The property consists of the Cleveland land group of six patented claims and the Utter group of seven unpatented claims all lying nine miles due north of Silver City in the Pinos Altos mining district. Those who should know, say that the company will erect a large concentrator and mine in which have been made by officers of the company as to the approximate cost of building an automobile highway from Silver City to the mine.

BEGINS WORK ON PROMISING PLACERS

Santa Fe, N. M., Nov. 26.—The Rio Grande Hill Mining company, controlled by Santa Fe and Albuquerque, has resumed operations on its placers on the Rio Grande near Embudo, Taos county. A pump lifts the water and throws it with tremendous force against a huge bank of gravel that formerly was the bed of the river and which carries gold and payable quantities. The gravel is washed into sluices.

I'm Not Afraid of Any Bill of Fare

If You Use a Stuart's Dyspepsia Tablet After Each Meal You Can Eat What You Like.

It does not make any difference what you eat if you will provide your system with the wherewithal to digest it.

"I Love to Get My Hand on a Bill of Fare."

This tablet will go into your stomach like food. It will mix with your digestive juices, strengthen them to their correct proportions. Then it will follow the food into the intestines where it will again aid in the work of digestion.

Even though you eat too much at any meal a little tablet taken at the close of your dinner will cause that dinner to be thoroughly digested without harmful effects.

TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It Darkens So Naturally Nobody Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age of the youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Hair Remedy" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with "Wyeth's Sage and Sulphur" is that besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. Besides, preventing dandruff, itching scalp and falling hair.—Advertisement.

PILES

HEM-ROID

ARIZONA GREATEST STATE FOR COPPER

Has Output of 1,000,000 Pounds a Day; Mineral Production in 1912 Increased Over 50 Percent.

Arizona ranks first among the states in the production of copper, and copper mining is by far the mainstay of the mining industry of the state, according to E. W. Parker, of the United States Geological Survey. The recoverable copper content of the ores produced in Arizona in 1912 was 345,033,685 pounds, a million pounds a day. The value of this product was \$60,251,377.

In 1912 the recoverable copper content of the ores produced in Arizona was 345,033,685 pounds, valued at \$38,267,692. The increase in 1912 was 58,971,111 pounds, or 17.2 percent in quantity, and \$21,963,685, or 57.4 percent in value. The total value of the mineral assets of the state in 1912 was \$44,503,872; in 1911 it was \$67,497,838, an increase of over 50 percent.

The large increase in the production of copper was due principally to the development of steam shovel operations on the low grade schists and porphyry (concentrations) of the Ray district, in Pinal county, and the Miami district, in Gila county.

Second among the mineral products of Arizona is gold, in which the state ranks seventh. The only other important mineral product is silver, in which Arizona ranks sixth in production. The three metals, copper, gold and silver, constitute nearly 98 percent of the state's mineral production.

EUREKA IS SHIPPING TO EL PASO SMELTER

John Comer Takes Over the Eberhardt Mine in the Prescott District; Mirabilis Yields Much Gold.

Prescott, Ariz., Nov. 26.—Regular shipments are now being made from the Eberhardt mine, in the Walker district, to the El Paso smelter. The ore is coming from the 200 foot level and is of the same good grade that was mined in the workings above.

John Comer has taken over the Eberhardt mine, owned by the Albers-Holwick estate, and has put a force of men to work. It will soon be a shipper.

The operations of J. N. Duncan on the Old Mitchell and the W. S. Comer holdings are bringing those properties into prominence. John Curran is developing the Middlefork claims, where a fine showing has been opened.

Five stamps are dropping night and day at the Mirabilis mine, in the Groom creek district. The yield of free gold is above expectations. A large tonnage has accumulated on the dump and there are big reserves in the dump.

Two carloads are being shipped each week from the Emporia mine to the Copper Queen smelter at Douglas. The old workings contain a sufficient tonnage to insure operations during the winter.

Among the noteworthy changes is a new recovery of surface and underground work has recently been accomplished at the old Jesse mine under the direction of C. H. Blacker, general manager of the Chaparral Mining company. This is a new syndicate.

TOM REED MILL MAKES BIG RECORD

Recovers \$110,000 in Four Weeks; Boundary Come to Have Reduction Work; Strike in El Metal.

Kingman, Ariz., Nov. 26.—With one exception, the production of the Tom Reed mill for the last four weeks was higher than ever before for a similar period. The total value of the four bars of bullion cleared up was \$110,000. Preparations are being made to have a large mill erected at the Boundary Come mine. It is expected that the first machinery will arrive by the first of January. The four levels all show ore of a character that will readily respond to plate amalgamation or cyanide.

Open Ore in Waldron. Work is going forward steadily at the Waldron mine, in the lower end of Deluge wash, and a good body of ore is being opened. Samples taken from a streak on the hanging wall carried 90 percent lead and 40 ounces silver. The larger part of the vein is well mineralized and probably would pay for concentration.

Rich Ore in Towne. The Towne mine, at Chloride, better known as the Sunset, has been taken over by the Gudey company. An engineer will be sent to the property and operations will be commenced. Some rich ore has been taken from the Towne.

H. E. Bierce has taken an option on the Garden Springs property of James Cheesher, at Mineral Park, in driving a drift on one of the McNelly claims. Mr. Bierce opened a body of copper ore that appears to extend into Garden Springs ground.

Woody Alger and Bob Petty are rapidly developing their gold strike near Little Meadows.

JACARILLA MINE TO INSTAL MILL

Carriazo, N. M., Nov. 26.—Wm. A. Franklin, of the Jacarilla mining district, in Carriazo, and reports that mining in that camp is progressing well. Mr. Franklin is making preparations to instal a new mill on the "Sally Dear" claims, which property he is operating.

Albert Farley and Ralph Jones, two capitalists of Denver, Colo., are the proprietors of Lincoln county and will likely invest in property near this mine.

Harry Sherman Campbell, Dr. A. J. Rolland and Frank W. Gurney have returned from the Capitan mountains where they had been to look after their mines.

MIAMI PRODUCING 3100 TONS DAILY

All of Miami Ore Now Being Concentrated Comes From Underground.

Miami, Ariz., Nov. 26.—At the Miami mine, production is at the rate of about 3100 tons per day and this rate will be maintained with possibly a slight increase, until about July, by which time it is expected that the capacity of the mill will be increased to 4000 tons per day. The development of the mine to this capacity.

All the ore being concentrated now comes from underground, the stock pile having been entirely cleaned up.

Development work is at the rate of about 1500 feet per month. The 420 foot level is being extended in the Captain ore body and concrete electric distribution stations are being built on the 570 foot level and 720 foot haulage levels.

There are now about 1300 men employed in and around the mine, mill, etc., of whom 700 to 800 are underground.

Development work is at the rate of about 1500 feet per month. The 420 foot level is being extended in the Captain ore body and concrete electric distribution stations are being built on the 570 foot level and 720 foot haulage levels.

FIELD GLASSES.

Lemaire, Bausch & Lomb-Zeiss, Busch and other well known makes, ranging in price from \$8 to \$150. The largest and most complete stock in the southwest.

WIFE CALLS HUSBAND AND FINDS HIM DEAD

Phoenix, Ariz., Nov. 26.—Going into the screened sleeping room of her home to awaken her husband for breakfast, Mrs. Phil Reardon found her husband lying dead on his cot. With an automatic revolver, which was still clutched in his lifeless hand, he had sent a bullet through his brain.

The Reardons came to Phoenix four months ago from Bisbee. Reardon was a lumberjack and head of a logging outfit. It is presumed that he shot himself to be released from pain.

STOCKHOLDERS ELECT NEW PRESIDENT OF TEXAS OIL CO.

Houston, Texas, Nov. 26.—Contest for control of the Texas oil company, the late John W. Gates, resulted in a victory for those favoring an executive committee.

The stockholders favoring executive committee control, dominated the meeting and elected E. C. Lufkin, of New York, president as successor to J. S. Cullinan, of Houston.

RACE VISITORS ARE FILLING UP EL PASO

Hotel Men Estimate 3000 Now in City; Undesirables Are Being Arrested as Vagrants by the Police.

In spite of the Mexican war movements and the fighting near Juarez, El Paso has continued to fill up with race horse owners and their families, trainers, exercisers, jockeys, and all the other followers of the track. The police department is endeavoring to weed out the more undesirable element in that following. Nearly every day shiftless individuals are arrested on vagrancy charges, given a hearing in police court, and given sentences of a brief time to leave town.

The chamber of commerce claims there are upward of 3000 horsemen, their families, employees, and others in El Paso at the present time. At the hotels most frequented by the followers of the races, the estimate is raised to 3000.

Among the better known of the horsemen in El Paso are the following: W. H. Tully, Butte, Mont.; C. Margette, San Francisco; Harry McCarty, San Francisco; W. F. Hubert, Salt Lake City; H. M. Fry, Oakland, Calif.; O. R. Phillips, Madera, Mex.; J. P. Richardson, Oklahoma City, Okla.; W. H. Hartlett, Nashville, Tenn.; J. E. Bonfield, New York; C. M. Blackman, New Haven, Conn.; J. A. Peters, Kansas City, Mo.

HEAD OF SOUTHERN RAILWAY DIES AT WASHINGTON, D. C.

Washington, D. C., Nov. 25.—W. W. Finley, president of the Southern railway system, died at his home here. President Finley was stricken with apoplexy and hemorrhages of the brain, while he was preparing to leave his home for his office. Before medical attention could be summoned he was dead. Although he was stricken before noon, word of his death did not reach the Southern Railway offices for several hours.

FILES BANKRUPTCY PETITION.

A petition in bankruptcy was filed late Monday in the clerk's office of the federal court at El Paso, by a merchant at 301 south El Paso street. Katz schedules his liabilities at \$10,000. His assets are at \$15,000. The liabilities, the petition states, consist of store rent, a note for \$850, and debts for merchandise purchased in small lots from many eastern firms. The assets are the stock of merchandise, \$9,000 in insurance, and about \$1,000 worth of household goods.

BATTLE BETWEEN LIFE AND DEATH

Ridgely Lady Tells of Her Fierce Struggle and How She Finally Won

Ridgely, Tenn.—"If it had not been for Cardui, the woman's tonic," says Mrs. Jennie Estes, of this town, "I honestly believe I would have been in my grave today. Therefore, I want to say something good for Cardui, but I can't begin to say enough."

I was sick abed with womanly troubles, from February until October, and was in very bad condition. I was treated three or four times a week, but it did me no good.

I battled between life and death, and my husband thought surely I would die.

One day, I thought I would give Cardui, the woman's tonic, a trial. I had no confidence in it at all, but bought a bottle. In a few days, I was up and doing my housework. Now, I have gained 15 pounds and feel as well as I ever felt in my life.

I advise all sick and suffering women to try Cardui. It cured me when all other medicines failed."

If you are weak, tired, worn-out, or suffer from any of the pains, peculiar to weak women, such as headache, backache, pains in arm, side or limbs, or any other symptoms of womanly trouble, you are urged to try Cardui, the woman's tonic. We think it will help you.
